This is DreamLife Recovery

Nestled in the mountains of Western Pennsylvania, our facility sets the standard for solution-based recovery in adult addiction treatment. We offer varied levels of care in order to meet the needs of every individual.

Mission and Vision

At **DreamLife Recovery**, our goal is to guide our clients as they develop effective strategies to maintain abstinence from drugs and alcohol, and prepare them to live a **happy, productive life** when they leave our facility.

“I would recommend it to anybody. I've seen other treatment facilities and this is 5 Stars compared to some of the places I've seen”

- Johnny, DreamLife Recovery Alumni

Levels of Care

Lifetime Alumni Engagement

After a client leaves DreamLife Recovery they will be in our Alumni Program. This program allows clients to adjust to their day-to-day lives in recovery. Making connections to the Alumni network during this time will lead to an ongoing support network of people who are also trying to be successful with sobriety.

Aftercare Planning

We understand that recovery from addiction is a lifelong process, so when a client completes our residential program, we continue to provide support and guidance. During our inpatient program we are preparing for a client's discharge by creating an aftercare plan to assist with long-term success.

Clinical Programming

Every team member is hand selected and every detail of the facility is designed with the psychological impact and effects considered in the development and design of DreamLife Recovery. The therapeutic recovery curriculum is built with every consideration of best practices to deliver optimal experiences for each individual. Our team delivers a truly individualized treatment plan for wellness starting from the very first day of treatment.

Individual Care Evaluations

Upon arrival, your dedicated treatment team will meet to discuss your individual circumstances and present a recommended treatment and recovery plan. Part of providing each individual with the care they need is based on initial and continuing assessments. These assessments aid in creating each individual's comprehensive treatment plan and determine appropriate treatment at each level of care.

The Team

Each member of our treatment team has been selected because of their excellence in attaining the best results in their therapeutic treatment specialty. As a team, we are here to welcome you in and make you feel safe. In clinical as well as social settings, our goal is to get to know your story and individual needs and make a plan with you to get you to where you want to be.

YOUR TREATMENT TEAM CONSISTS OF:

- › Vice President of Operations
- › Chief Medical Officer
- › Executive Director
- › Board-Certified Addictionologist
- › Clinical Director
- › Medical Director
- › Personal Recovery Coaches
- › Therapists
- › Director of Nursing
- › Nurses
- › Psychologists
- › Case Manager

All individual, educational, and group therapy sessions are facilitated by a minimum of a counselor assistant and supervised by a licensed, master's level therapist.

We accept most major insurances.

“

I think the biggest reason I would send anybody here is because of the freedom aspect of it. When I've been to treatment before, it kind of felt as if I was being a number being moved through a building. When I'm here I feel like a person. Like they actually, actually care.

”

-Jay, DreamLife Recovery Alumni
