

About Us

At DreamLife Recovery, we hold ourselves to the highest standards, ensuring clinical excellence and exceptional service in every detail of the comprehensive treatments we provide. Our staff are experienced and compassionate professionals who are personally invested in the success, health, and wellness of each of our clients. We provide clients with proven, scientific, and integrative treatments in a supportive environment.

Testimonial

"DreamLife is an amazing treatment center with an excellent staff. Their outreach specialist Aaron is knowledgeable and passionate when it comes to helping members of the community. They will go above and beyond!"

-D.R.

"All of the residents who came to our recovery houses from DreamLife speak highly of the clinical staff and facilities. Paulie from the outreach department always makes the admission process as smooth as possible for anyone I need placed for treatment. Love working with this team and love what they have to offer."

-M.W.

Get the
Help You
Need **Today**

This is **DreamLife Recovery**

Nestled in the mountains of Western Pennsylvania, our facility sets the standard for solution-based recovery in adult addiction treatment. We offer varied levels of care in order to meet the needs of every individual.

Detox **Program**

We believe in an individualized approach to detox that is fully comprehensive and understanding of all facets of the patient's mental and physical well-being. As the process begins, our team will be there monitoring your health and overall comfort.

Residential **Program**

The journey to a successful recovery from addiction is often rooted in quality clinical programming. While in our residential treatment program, clients are guided through the process of overcoming addiction through a wide range of evidence-based approaches and therapies.

Aftercare **Planning**

DreamLife Recovery has a commitment to the long-term success of our clients that is accomplished, in part, by our drug and alcohol counseling services. Our robust aftercare planning embodies this dedication to ongoing help after rehab.

Call Us. We Are Open 24/7

Our Mission & Philosophy

At DreamLife Recovery, our goal is to guide our clients as they develop effective strategies to maintain abstinence from drugs and alcohol, and prepare them to live a happy, productive life when they leave our facility.

Our philosophy stems from using the best practices of eastern spirituality, the original 12-step model, and modern evidence-based therapies. Using the best of each, we offer a comprehensive treatment program. Clients benefit from an integrative experience that prepares them for a happy and productive life in sobriety.
